Visitors of the museum will begin to get acquainted with the history of Krevo from the materials about the medieval castle, which was erected for the defense of the region from the Crusaders, about its destruction during the First World War.

The most valuable exhibits of the museum are: the plan of the land of the town Krevo1869, the furniture set with the carving of the end of the XIX century, the church documentation of the pre-war period, the collection of numismatics. Krevo was famous for its ceramics. Evidence of this - museum exhibits.
